**Comments:** (If possible, please reference section and/or page number in document if applicable.)

I am opposed to Yucca Mtn as the repository site. However, I am unable to submit substantive comments due to the DOE's failure to provide adequate information to the public + its failure to prepare a final EIS prior to this "hearing."

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
